

**REMARKS**

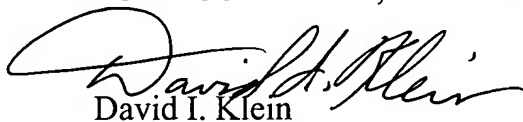

This case has been carefully reviewed and analyzed in view of the Official Action dated 18 August 2005. Responsive to the objections made in the Official Action, the Specification has been amended to clarify the language thereof.

In the Official Action, the Examiner objected to the Specification for informalities found therein. In response to the objection, the Specification has been amended to fix any informalities. No new matter has been added by these changes.

Applicant by this Amendment submits a corrected formal drawing of Figure 6. The corrected drawing includes elements which were not properly shown on the old Figure 6 as filed. No new matter is being added by these changes.

It is now believed that the subject Patent Application has been placed fully in condition for allowance, and such action is respectfully requested.

Respectfully submitted,
